DETAILED ACTION

Election/Restrictions

1. Claims 1-4 and 8-9 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 5-7, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now subject to being rejoined. Claims 5-7 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the paper dated June 6, 2003 is hereby withdrawn.

Allowable Subject Matter

2. Claims 1-9 are allowed over the prior art of record. The following is an examiner's statement of reasons for allowance:

The prior art while teaching a ferromagnetic label does not teach or suggest a paramagnetic label with a mass susceptibility of greater than 20×10^{-6} emu/g measured at 298 K or the rare earth ion concentration of 5 wt% or greater.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
